Subject: Rick Sandzimier struck by car

Dear Friends,

Many of you have contacted me to ask what happened to Rick Sandzimier over the weekend. Rick was intentionally hit by a car driven by Joe Holtzman on Friday night. I spent time with Rick over the weekend, and he is ok--bruised, sore and limping, but this is a shocking incident that is being investigated by the police. Rick was out late Friday night, putting up signs, when he noticed that a car had been following him. He got out of his car to install signs, and Joe Holtzman pulled up in his SUV. A verbal exchange followed, and then Joe lurched his car into Rick. Rick called 911 and the police arrived. Brian Skalsky was also on the scene but did not stay to speak with the Police. Joe Holtzman is a supporter of Brian Skalsky and Rhonda Reardon. Rick went to Mission Hospital to have his injuries checked immediately after the incident. There are two articles below which give additional information. Trish
